### **Emulfeel SSC Plus**

#### **Now it is easy to formulate solar protection products**

**Emulfeel SSC Plus** is an innovative excipient specially developed for sun care formulations.

Due to the exclusive DGN (double gel network) technology, it is an easy way to incorporate chemical and physical sun filters even in high concentrations.

**Emulfeel SSC Plus** helps the formulator to create stable sunscreen products with an impressive sensorial.

**Emulfeel SSC** also provides minimalist formulations, reducing the number of ingredients needed in stock and the set up time, what increases productivity and decreases process costs.

**Emulfeel SSC Plus**, an easy way to create sun care products.

Because innovation inspire us.
