

Help People Look Good. Feel Great

We at Sandream Enterprises are continuously expanding our range of cutting-edge pearlescent effect pigments to meet the growing demand of the cosmetic industry. New this year, are our eye-catching SYNMIIRA BLUE color travel pearls which exude brilliant cool tones with facets of violet, gold and green. We are also excited to announce the expansion of our popular SMOKEY VINTAGE line which is comprised of heavily pigmented small particle fluorphlogopite, perfect for a dramatic effect. High chroma and purity are at the forefront in our product extensions, which enhances the formulation of unique, high definition makeup. Synthetically based, these products are created utilizing a state-of-the-art multi-layered coating process which delivers superior coverage and mesmerizing effect.
