

MMP, Inc. to feature new ingredients at NYSCC Suppliers' Day

MMP, Inc. develops original purified original vegetal extracts, natural-derived compounds, as well as high purity synthetic ingredients with innovative cosmetic activities. At NYSCC Suppliers' Day MMP, Inc. will feature:

Hydration: Vegeluron® Gel forms a soft hydrating film which protects the skin and the hair from the environmental stresses. Its superior moisturizing effect and its high water retention capacity are particularly appreciated in urban life (dry atmosphere with air conditioning) and dry environment.

Anti-Pollution: ChiaProtect is a natural source of anti-antioxidants with anti-inflammatory properties. It calms skin discomfort and itching and reduces skin redness in sensitive skins. Its protective and preventive effect is also associated with an increase of the skin elasticity and an improvement of the skin barrier function.

Skin Lightening: Vitisin is a vine root extract titrated in vitisin A and B with strong tyrosinase inhibition activity. Tested *in vivo*, it has a skin lightening effect and reduces the color and surface of hyperpigmented spots.

Visit us at NYSCC Supplier's Day booth # 1443.
