### **Anti-aging, whitening & Lightening raw materials**

VITAL-CHEM will present its most popular products – Monoammonium Glycyrrhizinate (MAG), Dipotassium Glycyrrhizinate (DPG), Stearyl Glycyrrhetinate (SG), 18- $\beta$  Glycyrrhetic Acid, Glycyrrhizic Acid (GA), and (-)-Epigallocatechin gallate (EGCG). Naturally derived from the liquorice and tea plant.

The above raw materials is easily absorbed into the skin for anti-aging, whitening and lightening, UV-filter, anti-radiation and ideal for:

- Lotions
- Creams
- Face masks
- Skin toners
- Hair care products
