

IDES and UL have joined forces to give the plastics industry an unprecedented level of information, insight and intelligence. Melding the leading information resource for plastics material with the world's most trusted name in plastics testing and certification empowers the supply chain of plastics material to make faster, smarter decisions. Our powerful tools search, filter and mine a comprehensive database of company and third-party validated information using an intuitively elegant and simple interface. Whether you are a product manufacturer or a material supplier, UL IDES can grow your business with a unique suite of tools and services.

Prospector Plastics Database – www.ides.com/prospector

UL IDES Prospector is a searchable online database that includes 85,000 data sheets from 875 manufacturers. Each data sheet includes property, processing and supplier contact information. Prospector is relied on by 365,000 design engineers and plastics processors. Using Prospector, they save time with plastics material selection by quickly and easily referencing technical information critical to the success of their products.

“Prospector is absolutely the best and most well known search engine for plastics raw materials in the world. We use Prospector every day – it’s a real time saver!”

- Birgit Elvardt Bader, Production Manager, Micotron

Material Data Management – www.ides.com/datasheets

With our data management services, plastics suppliers and distributors can have custom search interfaces available on their website for their customers, website visitors, sales and customer service teams. These provide intuitive ways to find and view technical data sheets for their products.

“With IDES data services, our website now displays the most current information on the products we distribute and links to our backend RFQ and sales order system, adding both value and service for our customers.”

- Kevin Chase, Owner & President, Chase Plastics
